1 THE COURT: Is there a difference between the use
2 of the words similar and consistent in terms of lab
3 parlance versus members of the public and common parlance?

4 MR. AINLEY: Well, unless we're going to explain
5 lab parlance to the Grand Jury, I don't believe that there
6 is and if you look in the -- in a thesaurus for
7 consistent, you will find the word similar in the same
8 definition.

9 So Grand Jury presentations are often, if
10 you will excuse the phrase, dumbed down to the level of
11 the common person who is coming in whose experience is
12 with watching CSI on TV, but little else.
